EXPERIENCE

Fitify App, Prague - Senior Product Designer

Nov 2025 - Present gofitify.com

- Designing and optimizing core product experiences for Fitify (AI fitness coach) and Cailo (calorie tracking app), focusing on workout flows, nutrition tracking, analytics, and personalization.
- Leading A/B testing and experimentation to improve activation, engagement, and retention across onboarding, workouts, and tracking features.

CyberMetis, Chicago - Senior Product Designer

Aug 2025 - Nov 2025 cybermetis.io

- Owned end-to-end design for an adaptive learning platform (research > dashboards).
- Translated complexity into clear IA, flows, and data-driven UI.
- Structured work into epics, user stories, and tasks in Azure DevOps.

Rolla, BiH - Product Designer

Feb 2023 - Jul 2025 rolla.app

- Led end-to-end design across Rolla Health, Diet, and Activities for B2C users and B2B employers.
- Built Rolla Health module from scratch (HRV, sleep, steps), serving 10K+ active users.
- Redesigned Rolla Diet onboarding and calorie-tracking flows, reducing drop-off by 40%.

CEQUENS, Dubai - UX/UI Designer

Oct 2022 - Feb 2023 cequens.com

- Designed enterprise dashboards for messaging APIs (web & mobile).
- Simplified complex workflows to improve usability and clarity.
- Delivered marketing and product UI assets aligned with brand goals.
